

MOON PILLOWS

Crescent shaped pillows, traditionally woven from premium quality diachronic yams.
The perfect companion for new mothers, infants, yogis, yoginis, home-makers and
comfort-lovers.

Supporting You In Every Situation

Our Moon Pillow is designed to provide support and comfort for any occasion, from daily relaxation to specific use.

Pregnancy

As the baby grows, pregnant mothers often twist their spines and backs as they sleep on their sides. By placing the crescent-shaped pillow between the legs, you can feel more comfortable and help restore balance.

Meditation

During meditation you can sit comfortably and easily with good posture, maintaining your back straight.

Breastfeeding Mothers

The pillows reduce strain and tension on the arm and shoulder for breastfeeding mothers. This reduction in stress in the upper body makes the experience of breastfeeding more comfortable and easy while also making milk flow more freely.

Yoga

It provides extra cushioning to support knees and elbows during difficult poses in yoga.

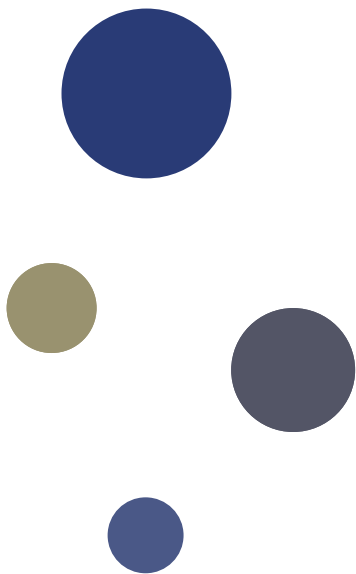

Home Décor

When not being used for other purposes, moon pillows are an attractive addition to any sofa, chair, or bed, adding a unique element to any interior design.

Comfort

Whether reading on your front, sitting in an office chair, or lying on the floor or sofa, the contoured pillow will add comfort by supporting the neck, head, or lower body.
